Sweet Porridge

November 2026

Your Little Yarra Steiner School is situated on Wurundjeri Country. We respectfully acknowledge the Wurundjeri Woiwurrung People of the Kulin Nation as the Traditional Custodians of the lands on which we work, learn, and play, and pay respect to their Elders past, present and emerging.

We are honoured to share in the continued care of this land, with its wetlands and river, its stones that sleep in the depths of the Earth, its plants and trees that reach for the Sun, and all the creatures that know it as home. We respectfully acknowledge the ancient and enduring culture of those who have walked this land in the past, which will continue to enrich the lives of our community into the future.

This month in the Garden

Starting Growing Flowers From Seed

Music Register

As November unfolds, the Yarra Valley is bursting with life. The days are growing longer, gardens are flourishing, and the warmth of summer is beginning to make itself felt. There is a wonderful sense of energy and movement in the air as we approach the final weeks of another school year.

This month, we have a particularly special occasion to look forward to: our School Open Day on Saturday, 14 November. It is a beautiful opportunity to open our doors, welcome new families and share a glimpse of the rich and creative learning experiences that make our school such a special place.

As you wander through the classrooms, you will discover a journey that begins with the wonder and imagination of early childhood and gradually unfolds into the independent thinking, creativity and growing confidence of our senior students. Each classroom tells a story, reflecting not only what children are learning, but also who they are becoming.

In this edition, we celebrate that journey with a special feature exploring Steiner education from Kindergarten through to Class 12. You'll also find a little spring inspiration, with gardening tips, nature crafts, seasonal recipes, poetry to enjoy with your family.

As the school year slowly draws to a close, it is also a lovely time to reflect on how much our children have grown. Some changes are easy to see, while others happen quietly, beneath the surface, much like the roots of a tree growing stronger before its branches reach towards the sky.

Perhaps one of the greatest gifts we can offer our children is the time and space to grow in their own way, supported by a community that values their individuality, creativity and curiosity.

To all the teachers, families, students and community members who contribute to the life of our school, thank you for the care, energy and love you bring throughout the year.

And to those visiting us for the first time, a very warm welcome. We hope you enjoy discovering our school community.

Wishing you all a beautiful November, filled with sunshine, connection and little moments of wonder.

Poems

Who Has Seen the Wind?
by Christina Rossetti

Who has seen the wind?
Neither I nor you.
But when the leaves hang trembling,
The wind is passing through.
Who has seen the wind?
Neither you nor I.
But when the trees bow down their heads,
The wind is passing by.

Seedling
by Paul Laurence Dunbar

As a quiet little seedling
    Lay within its darksome bed,
To itself it fell a-talking,
    And this is what it said:

"I am not so very robust,
    But I'll do the best I can;"
And the seedling from that moment
    Its work of life began.

So it pushed a little leaflet
    Up into the light of day,
To examine the surroundings
    And show the rest the way.

The leaflet liked the prospect,
    So it called its brother, Stem;
Then two other leaflets heard it,
    And quickly followed them.

To be sure, the haste and hurry
    Made the seedling sweat and pant;
But almost before it knew it
    It found itself a plant.

The sunshine poured upon it,
    And the clouds they gave a shower;
And the little plant kept growing
    Till it found itself a flower.

Little folks, be like the seedling,
    Always do the best you can;
Every child must share life's labor
    Just as well as every man.

And the sun and showers will help you
    Through the lonesome, struggling hours,
Till you raise to light and beauty
    Virtue's fair, unfading flowers.

Story Time

The Magic Rice

A Fairytale from Japan

Sharifa Oppenheimer

Once upon a time, in the far away land of Japan, there lived a poor woodcutter and his wife. One morning at dawn, they discovered there was only enough rice to make three cakes for his midday meal. When this was prepared, they bid each other farewell, and the woodcutter set off into the forest.

When the sun rode high in the heavens, he stopped working, and sat down upon a stump to eat. Taking out one rice cake, he set it down beside him on the stump. But it rolled off the stump, onto the ground and down a small hole. Seeing this, he took out another, and in order to take a drink of water, he set it on the stump. It too rolled off the stump, onto the ground, and down the hole.

Now, the woodcutter was hungry, and he determined to retrieve his rice cakes. He squatted beside the stump, and peered down the hole. It was then that he heard the tiny voices. So, he took his last rice cake and rolled it down the hole. Suddenly he found himself rolling, rolling down.

When he woke up, he looked this way and that, and discovered he was in the underground kingdom of the mice. There he saw hundreds of mice all eating the crumbs of his rice cakes.

Together they sang a song: “Rice man, rice man...nice man, nice man...rolling, rolling down”. Now the mice took him on a stroll through their underground world. He saw their tiny nests and burrows, their babies and children playing. Finally they took him into the hall of their King.

The Mouse King said, “Because you have cared for my people and have fed them, now I will give you a gift in return.” He gave to the woodcutter a small silk bag, just the size of your baby fingernail. The man thanked the King, and all the mice began to sing again “ Rice man, rice man...nice man, nice man... rolling, rolling up!”

The next thing the man knew, he was yawning and stretching beside the stump, as the sun was setting behind the hills. “Oh, no!” he cried, “I have slept the afternoon away, and have cut no wood!” But upon standing up, he found in his hand the tiny silk bag. Now he knew it had not been a dream! He hurried home to tell his wife all about it.

Next morning, they went to the cupboard to prepare the morning meal, but there was not so much as even one morsel to eat. This saddened the poor people, but then they thought to look into the tiny bag given by the Mouse King. Inside they found three grains of rice. “It is enough for one tiny rice cake,” the wife said.

Taking her bowl, she poured out the rice grains: one, two, three.....four, five, six!!....seven, eight, nine!! Each time she shook the bag, more rice fell out, till the bowl was full and running over. Still, there was more and more rice! There was enough rice for their morning meal, and midday meal, also. The bag was never empty!

There were enough rice cakes for the children of the village, who gathered outside their door. There were enough rice cakes for the children to take home to their families, and enough for the whole village. Each time they shook the magic bag, rice came tumbling out. And from that day until this day, because of the generous woodcutter, there has plenty of rice for all!

A Journey Through Our Classrooms

An Open Day guide • Kindergarten to Class 12

Every classroom tells a story.As you explore our school, discover how imagination, artistry, practical skills and independent thought grow through the years.

The early & primary years

Kindergarten & Prep · A world of wonder

Discover seasonal nature tables, natural play materials, painting and handwork. Storytelling, movement and imaginative play help children build confidence, language and social skills.

Class 1 · The magic of learning

Look for illustrated letters, numbers, form drawings and Main Lesson books. Stories, rhythm and colour bring the first steps in reading, writing and mathematics to life.

Class 2 · Stories and growing confidence

Explore writing and art work inspired by fables and inspiring people. Language, number work, music and movement strengthen developing skills and self-belief.

Class 3 · Learning through practical life

Discover work on farming, building, gardening and everyday needs. Measurement, money and practical activities connect classroom learning with the world around us.

Class 4 · Our world, closer to home

Look for maps, animal studies and illustrations inspired by Norse stories. Observation, local geography and creative projects deepen children's sense of place.

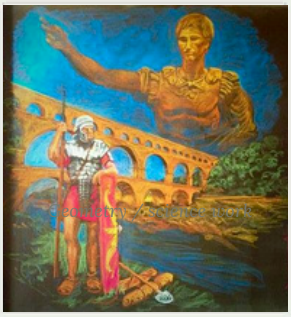

Growing in Knowledge and Confidence

From ancient worlds to the discoveries of adolescence

Class 5 · Ancient worlds and plant life

Explore the stories and cultures of ancient civilisations alongside carefully observed botanical drawings. History, geography and nature studies expand students' horizons.

Class 6 · Discovering natural laws

See geometry, geology, astronomy and introductory physics in students' work. Careful observation, drawing and reasoning support a more analytical approach to learning.

Class 7 · Exploration and discovery

Look for studies of theRenaissance, voyages of discovery, human biology and the sciences. Creative and academic work reflects a growing desire to question and investigate.

Class 8 · Challenge and achievement

Discover more complex work in literature, history, mathematics, science and the arts. Projects invite students to bring together practical skills, creativity and independence.

Ideas, Independence and New Horizons

The journey towards life beyond school

Class 9 · Seeing from new perspectives

Explore investigations in physics, history, literature and the arts. Students learn to observe, challenge assumptions and express their developing points of view.

Class 10 · Understanding connections

Look for work connecting scientific processes, historical change, geography, literature and mathematics. Inquiry and reflection encourage clear, independent thinking.

Class 11 · Questions and deeper ideas

Discover thoughtful responses to literature, philosophy, science and the arts, alongside senior academic work. Research and discussion help students refine their own ideas.

Class 12 · Preparing for what comes next

Explore senior learning and independent projects that bring individual interests into focus. These works reflect the confidence, depth and initiative cultivated across the school years.

MORE THAN WHAT MEETS THE EYE

Look closely at the books, paintings, practical projects and investigations. Each piece is part of a larger journey of growing, learning and becoming.

Craft Corner

Spring Nature Suncatchers

Spring brings a wonderful collection of colours, shapes and textures. From delicate flower petals to beautifully shaped leaves, nature offers endless inspiration for creating.
These lovely suncatchers are a simple way to bring the beauty of the garden indoors. Hang them in a sunny window and watch the light shine through!

You will need

- Clear adhesive contact paper
- Coloured cardboard or thick paper
- Fresh or pressed flower petals
- Small leaves and grasses
- Scissors
- String or ribbon
- A hole punch

Method

Step 1 – Gather your treasures

Take a gentle walk through the garden and collect a few fallen petals, small leaves and grasses. Look closely at their beautiful shapes and colours. Press your treasures between sheets of paper under a heavy book until dry and flat.

Step 2 – Make your frame

Cut two matching circles from coloured cardboard. Carefully cut out their centres to create two circular frames.

Step 3 – Arrange your nature treasures

Cut two pieces of clear contact paper slightly larger than your frame's opening. Place one piece sticky-side up and gently arrange your pressed flowers, leaves and petals on it.

Step 4 – Seal your suncatcher

Carefully place the second piece of contact paper over your design, sticky-side down. Smooth out any air bubbles, then sandwich the transparent artwork between your cardboard frames and secure the edges.

Step 5 – Hang it in the sunshine!

Punch a small hole at the top, thread through a ribbon and hang your beautiful creation in a sunny window.

Watch how sunlight brings your little garden artwork to life!

Recipe

Strawberry & Coconut Muffins

November brings beautiful strawberries to our gardens and markets. Sweet, juicy and full of flavour, they are perfect for these soft and delicious muffins. Made with simple ingredients, these muffins are wonderful for lunchboxes, picnics or a little afternoon treat.

Ingredients

- 1½ cups plain flour
- ½ cup desiccated coconut
- 2 teaspoons baking powder
- ¼ teaspoon salt
- 2 eggs
- ⅓ cup maple syrup
- ½ cup milk or plant-based milk
- ⅓ cup melted coconut oil (cooled slightly)
- 1 teaspoon vanilla extract
- 1 cup fresh strawberries, washed and chopped
- 2 tablespoons shredded coconut for topping (optional)

Method

1. Prepare your oven
Preheat the oven to 180°C (160°C fan-forced). Line a 12-hole muffin tray with paper cases or lightly grease the cups.

2. Mix the dry ingredients
In a large bowl, combine the flour, desiccated coconut, baking powder and salt.

3. Whisk the wet ingredients
In another bowl, whisk together the eggs, maple syrup, milk, melted coconut oil and vanilla extract.

4. Bring everything together
Pour the wet ingredients into the dry ingredients and gently mix until just combined. Be careful not to overmix, as this can make the muffins dense.

5. Add the strawberries
Gently fold in the chopped strawberries, saving a few pieces to decorate the tops.

6. Fill the muffin tray
Divide the batter evenly between the muffin cases, filling each about three-quarters full. Add the remaining strawberries and sprinkle with shredded coconut if desired.

7. Bake until golden
Bake for approximately 20–25 minutes, or until the tops are lightly golden and a skewer inserted into the centre comes out without wet batter.

8. Cool and enjoy!
Allow the muffins to cool in the tray for five minutes before transferring them to a wire rack.

Enjoy them slightly warm or pack them into lunchboxes once completely cooled.

This Month in the Garden

November is a wonderful time in the garden! The days are becoming longer and warmer, flowers are blooming, bees are buzzing, and vegetable gardens are springing to life. Whether you have a backyard, a veggie patch or a few pots, there is plenty to enjoy.

What to Plant in November

IN THE VEGETABLE GARDEN

- Tomatoes, zucchini & cucumbers
- Pumpkins & sweet corn
- Bush and climbing beans
- Carrots, beetroot & radishes
- Lettuce, rocket & silverbeet
- Capsicums & eggplants

IN THE HERB GARDEN

- Try basil, parsley, chives, dill, thyme, oregano and mint.

Herbs are lovely for children to grow. Explore their shapes and scents, and discover how they flavour everyday food.

LOCAL TIP • In cooler parts of the Yarra Valley, wait until the soil is warm and late frosts have passed before planting tender seedlings like tomatoes, basil and zucchini.

Flowers for Colour & Pollinators

Brighten your garden with cosmos, sunflowers, zinnias, alyssum and marigolds.

For native pollinators, choose locally indigenous flowering plants suited to your garden.

A flourishing spring garden welcomes butterflies, bees and many other tiny visitors.

Five Gardening Jobs for November

Simple ways to prepare your garden for summer

01

MULCH BEFORE SUMMER

Spreadstraw, sugar cane mulch or composted organic matter around plants to retain moisture, protect roots and reduce weeds. Keep mulch clear of stems.

02

WATER WISELY

Water deeply when needed, preferably early in the morning. This encourages healthy roots and reduces evaporation.

03

SUPPORT GROWING VEGETABLES

Give tomatoes, climbing beans and cucumbers stakes or trellises early, before their growth becomes difficult to manage.

04

FEED THE SOIL

Add well-rotted compost to garden beds, and use suitable organic fertiliser for plants that need extra nutrients.

05

WELCOME GARDEN VISITORS

Plant flowers for bees and. butterflies, provide a shallow water dish with landing stones and avoid unnecessary pesticides.

What Can We Harvest?

Depending on earlier planting: strawberries, lettuce, rocket, silverbeet, snow peas, spring onions, parsley, carrots and radishes. Regular picking helps many vegetables and herbs keep producing.

Grow a Sunflower!

An activity to enjoy with little helping hands

Sunflowersare wonderfully rewarding for children. Their large seeds are easy to handle, and watching them grow offers a gentle lesson in patience and observation.

YOU WILL NEED • Sunflower seeds • A sunny pot or garden bed • Compost-rich soil • Water

1. Choose a sunny position with well-draining soil.
2. Plant the seeds approximately 2–3 cm deep.
3. Water gently and keep soil moist during germination.
4. Watch for the first little green shoots to appear.
5. Measure your sunflower each week and record its growth.

NATURE JOURNAL IDEA • Invite children to draw the plant at each stage: seed, shoot, leaves, bud and golden flower.

A Little Garden Reflection

Agarden teaches usthat growth happens in its own time. Some seeds sprout quickly, while others take longer. Each plant has its own rhythm, its own beauty and its own way of growing. Perhaps nature reminds us to offer children that same patience, care and space to flourish.

Happy spring gardening!

BELL REAL ESTATE

187 Woods Point Road, East Warburton

$795,000—$850,000

"Ferndale" Warburton Retreat

Superbly positionedjust outsidethe Warburton township, this is a property where location and lifestyle come together beautifully. Inside, the home offers three generous bedrooms, all with built-in robes and plenty of space to accommodate multiple beds if desired. The spacious open plan living area is made for gathering. The kitchen blends modern convenience with plenty of charm, featuring a Smeg oven, generous bench space and a neutral, contemporary palette. The gardens have created a beautiful, low maintenance wonderland. The rear fern garden a completely different, wonderfully tranquil part of the property and the ideal spot to sit, reflect or meditate. Set on just over half an acre, the property also offers a lock-up garage, woodshed, 8.7kW solar system and excellent fencing throughout. A truly special property in an enviable location, where the garden, the home and the surrounding Yarra Valley lifestyle come together. Don't miss out!

BELL REAL ESTATE

52 Donna Buang Road, Warburton

$730,000—$780,000

A Charming 3 Bedroom Character Home & Your Cottage Garden Dream

Setonover half an acre ofestablished gardens,this charming country property offers a wonderful opportunity to embrace a slower pace of life. Complete with a greenhouse, garage and woodsheds, there's plenty of room to indulge your gardening passion and make the most of country living, all just a short trip from Warburton township. At the heart of the home is a spacious country kitchen, a natural gathering place for family and friends, complete with a cosy wood fire for those cooler days. The generous lounge room is equally inviting, where picturesque garden views provide a beautiful backdrop. Three bedrooms, each featuring timber floorboards, continue the home's timeless character. Two enjoy lovely garden outlooks, while the third captures the surrounding mountain scenery. A property full of charm, character and country appeal, offering space to grow, room to potter and the opportunity to create your own little slice of paradise.
